

castus is a leading global supplier of transfer systems for the sterile and rapid loading and unloading of isolators. To strengthen our team, we are looking for an immediate

Development engineer (m/f/d)

This will make you grow

- Independent and responsible supervision of the development of innovative new products in the field of transfer systems, starting with market analysis and scheduling up to the series product
- CAD design of prototypes, test planning, organization of implementation and validation
- Interface between management, design and manufacturing
- Documentation/presentation of the development result

This will move us forward

- Successfully completed technical studies
- Good knowledge in 3D design (preferably SolidWorks)
- Ideally several years of professional experience in the field of development of medical & pharmaceutical special equipment
- Very careful, goal-oriented and team-oriented way of working with quick comprehension, a lot of initiative and personal responsibility
- Knowledge of the common MS-Office programs
- Very good knowledge of German and English
- Willingness for occasional home and abroad travel

That is why castus is a great place to work

- You want to create, not just execute – at castus there is plenty of room for initiative, your ideas will be heard!
- You need security - we offer you a future – proof job after the probationary period!
- You are bored with a constant working day – here every day is different and challenges you anew!
- Bureaucracy slows you down – with us you have your own area of responsibility, we give you space for your personal development!
- You don't want to be a number – our team is looking forward to meeting you. Be a part of our family!

On the way top with castus!

Are you looking for a new challenge?
Then send us your informative
application with your salary expectations
and earliest starting date.
